

MAINTENANCE OPERATION	EQUIPMENT TYPE	MACHINE SPEED	PRODUCT	DESCRIPTION
STRIP To remove all finish, sealer and contaminants from the floor surface. Done at the start of a maintenance program and at times when scrubbing will not achieve the desired result.	Rotary or Automatic	Low Speed 175-600 RPM		For heavy finish build-up, quick stripping and stain removal. Quickly and thoroughly removes old finish, dirt and build-up. Unique, open web construction-stripping solution flows through pad to rinse out dirt and reduce loading for increased pad-to-floor contact.
SCRUB Done prior to replacing worn finish; provides a fresh new surface to maintain.	Rotary or Automatic	Low Speed 175-600 RPM		For heavy-duty scrubbing prior to recoating. Can also be used for heavy-duty spray cleaning or foam scrubbing. Removes dirt, spills and scuffs, leaving a clean surface ready for recoating.
BUFF/POLISH Buff very soft finishes or use for polishing soft waves on wood floors. Polish to remove light soil and other contaminants.	Rotary to buff. Rotary or Automatic to polish.	Low Speed 175-600 RPM		Buff: Specially designed for spray buffing. Cleans when damp, buffs when dry. Quickly cleans and removes scuff marks while polishing floor to a high gloss. Polish: For light scrubbing. Cleans without dulling floor finish.

FLOOR PADS

A cost effective way to produce beautiful looking floors. Each pad is designed to perform a specific job and to provide consistent performance while assuring high-quality reproducible results. Packed 5.

PRODUCT NO.	COLOR	SIZE	LIST PRICE
A. STRIPPING PADS			
1 MMM 08374	Black	12"	24.00 CT
2 MMM 08378	Black	16"	35.85 CT

15 MMM 08481	White-Super Polish	17"	39.60 CT
16 MMM 08484	White-Super Polish	20"	51.60 CT

Joe Knows . . .

All floor pads are not created equally.

The differences between floor pads may seem small, but when added up, they can make a big difference to your bottom line in terms of productivity and labor costs. 3M floor pads offer:

- Uniform distribution of mineral abrasives throughout the pad (not just on the surface) assures superior performance and long, useful life.
- Individually separated and coated fibers help produce better, more consistent results.
- The right amount of aggressiveness for every type of stripping, scrubbing and cleaning job.
- Each floor pad is engineered specifically for a particular maintenance task.
